Click on each color image to see a larger view and to find which vehicles these colors apply to. Please highlight the color ID directly below the box of the color you require and copy the ID onto your clipboard so that it may be pasted onto your order form when placing your order. We have tried to reproduce these colors as accurately as possible. Please keep in mind that color representations may vary depending upon screen monitor settings, browsers and many different factors. We can provide you with factory original colors based upon "Color Name" only. Trim codes do not necessarily provide us with sufficient information to identify the correct interior color for your application. To obtain the correct "color name", you may check the specification or "build" sheet that came with the vehicle for the trim color "name". If that is not available, please contact your local dealership and provide them with the VIN number of your vehicle. The interior or "trim color name" can be retrieved through their computer system. If you do not see your particular color listed on this chart, please read the information at the bottom of this page. S Pure Black. GM Med Red. GM Med Maroon. GM Garnet. GM Dk Gray. GM Graphite. If you do not see your color listed here, it may be due to the fact that we do not have an accurate sample to match to. Some of the samples that we have in our library have been collected from actual vehicles already in service. These samples may have been collected by our field technicians as they performed restoration services on theses cars, or by the actual owners, wishing to perform restorations themselves. These samples have been collected from inconspicuous areas and are free from dirt, wear and fading. If you wish to send us a sample of a color that is not listed, please feel free to do so. You will not only get the exact color for your vehicle, but you will also be helping others with the same situation by aiding us in providing exact color matches for even the most obscure colors. Unlike other websites and magazines, our ratings are not based solely on a singular road test, but rather a more encompassing batch of criteria: quality, safety, comfort, performance, fuel economy, reliability history and value. When comparing vehicles using our Rating System, it's important to note that the rating earned by each vehicle correlates only to the models within its class. Only the most exceptional vehicles achieve this rating. Very good and close to being the best vehicle in its class. Decent, but not quite the best. Often affordable, but lacking key features found in vehicles of the same class. Not recommended, and lacking attributes a car buyer would come to expect for the price.
