97 eclipse

The Mitsubishi Eclipse is a sport compact car that was produced by Mitsubishi in four generations between and The first two generations 1G and 2G share the automobile platform and parts with the rebadged Eagle Talon and Plymouth Laser captive imports. They were built during Mitsubishi Motors ' close relationship with Chrysler Corporation. In Japan, the first two generations were sold at a specific Japanese retail chain called Mitsubishi Car Plaza. During May , the fourth, and final, generation 4G Eclipse was introduced, replacing the Chrysler platform used in the first three generations with the PS platform. According to Mitsubishi Motors, the Eclipse was named after an unbeaten 18th-century English racehorse that had won 26 races. At the end of August , the final Eclipse rolled off the assembly line, and was auctioned off, the proceeds donated to charity. In , Mitsubishi resurrected the Eclipse name on a compact crossover vehicle, titled the Eclipse Cross , which debuted at the Geneva Auto Show. The first generation Mitsubishi Eclipse was marketed as an entry to mid-level four-cylinder sports coupe segment. Four trim levels were available; all were front-wheel drive except the GSX which was all-wheel drive. The first generation Eclipse underwent minor styling changes during its production; â€" models have updated sheet metal and are easily distinguishable from earlier model years. The most notable is that the models have pop-up headlights, whereas the latter model years do not. The Eclipse was revised for the model year as the second generation. The Eclipse was available in five trim levels during its first-generation production run. AWD models were not available until halfway through the first model year. However, and later years of both turbo models standardized on the hp version 4G63T. These models varied significantly in drivetrains and available options, and included some variance in appearance, as higher trim lines added different front and rear fascia panels and surrounding trim, with the GSX model getting a notably different styling package from the others. The basic driveline layout of the Eclipse is a transverse -mounted 4-cylinder Mitsubishi 4G37 or 4G63 engine situated on the left-hand side of the car driving an automatic or manual transmission on the right-hand side. AWD models have a different transmission which includes a limited-slip center differential and output shaft for a transfer case, which drives the rear differential also available as limited-slip and half-shafts. Late â€" have larger-diameter axles and attach to the hub with bigger, 4-bolt axle cups. The 4G37 and 4G63 engines are gasoline inline-fours. The 4G63 has an iron engine block with an aluminum cylinder head and is equipped with two balance shafts. The turbocharged version of the 4G63 sometimes referred to as the 4G63T has a lower compression ratio 7. The turbocharged 4G63 engine received an internal update during the model year. The engines built from through April have 6-bolt motors. Beginning in May , Mitsubishi revised the engine to a 7-bolt design. The bolts refer to the number of bolts on the flywheel that connects to the crankshaft. In March , Mitsubishi issued a recall bulletin 98V for all Mitsubishi Eclipse GSXs citing, "Lockup of the transfer case can occur due to insufficient lubrication. The condition can cause a loss of vehicle control increasing the risk of a crash. The transfer case itself did not leak but rather the brass plug in the center of the transfer case yoke would leak. Mitsubishi estimated 24, vehicles were affected. The Eclipse was redesigned in for the model year and included standard dual airbags, more rounded styling, a larger interior, and a new engine made by Chrysler for the base model. The second-generation car maintained the market focus of the first generation car but had numerous changes to appeal to a broader market. The Spyder GS was powered by a 2. The GSX model was also powered by this engine but with the addition of a high performance all wheel drive system. No convertible model was powered by the Chrysler's a engine, nor was there a convertible with all-wheel-drive. The turbocharged engine option continued as the 4G The naturally aspirated cars had two different I-4 engines depending on the market they were produced for. A special version of the Eclipse, called the "10th Anniversary OZ Rally", was sold at the end of the model run with unique inch Enkei wheels with the OZ Racing logo. The special edition package was only offered with the A engine. A unique version of the 2G Eclipse was sold in some European countries. It used a naturally aspirated Mitsubishi 4G63 motor, similar to what was available in the 1G, unique side-view mirrors, and amber rear turn signals. A minor style revision was applied for the model year. The front grille opening was given a more aggressive profile. The headlights were given a sharper slant on the inner edges, and the previous all-chrome fixture interior changed to a black interior with chrome reflector inserts. The driving lights were revised from a reflector type to a smaller projection type. The rear bumper cap was altered and had the reverse lights restyled and moved out into the bumper fascia, away from their original central position by the license plate bracket. The Eclipse was available in seven trim levels: Base [Only available in The basic driveline layout of the Eclipse is a transverse-mounted 4-cylinder Chrysler A, Mitsubishi 4G64 or 4G63 engine. The Mitsubishi motors are mounted in the same orientation as the first generation cars. The a-powered cars had the engine mounted on the right side of the car, and further back in the chassis. AWD models had a similar transmission to the first generation car. All motors are four-cylinder

gasoline engines. All have cast iron blocks with aluminum cylinder heads. The â€" turbo engines were given an increased compression ratio of 8. This was done to minimize turbo lag, which was an undesirable trait for mass-market appeal in the U. These changes led to increased horsepower and torque vs. The intake ports on the head and runners of the intake manifold are also larger on the 1G. They also have larger crankshaft bearing journals to allow better lubrication. Because they look similar, it is important to note that the cylinder head is more on the side of high air volume, while the cylinder head is more on the side of high air velocity. Mitsubishi Motors quietly updated its 4G63 engine in and The crankshaft is more precisely shaved and cut compared to previous years. It is identical to that used in the Mitsubishi Lancer Evolution , which was not yet sold in North America until The thrust bearings have been revised to a "split" type to allow better lubrication and self-alignment with the crankshaft. Although originally deactivated to protect the drivetrain, it included advanced features such as launch control, boost control, adjustable rev-limit, fuel system control as well as fuel and boost map selection for certain Mitsubishi Heavy Industries turbochargers. The 2G Eclipse received numerous Technical Service Bulletins TSB affecting a variety of issues with the car however there was one notable powertrain recall. There were a variety of symptoms however the most common symptom of crankwalk is the clutch pedal would stick to the floor upon making a left turn. If crankwalk occurred, it typically meant engine failure. In , Mitsubishi revised manufacturing processes to correct the issue. Anti-lock brakes were optional on all models except for RS. It was the first concept vehicle exhibited by Mitsubishi at an auto show in the U. AWD was no longer an option. The suspension setup was modified to provide a softer and more compliant ride quality. The third-generation Eclipse shared its powertrain with the 8th generation Galant. In mid, the GTS trim was introduced for the model year. With the introduction of the GTS model, the Eclipse saw minor changes including a redesigned front bumper with slotted fog lights, as well as a recoloring of the taillights. On the interior, the gauge face changed, and the door panels were also redesigned. All trim levels besides RS and the Spyder came with an automatic tilt and retracting sunroof. All models were FWD. The GTS trims were introduced for the model year. For the model year, the RS trim was discontinued and a special "Remix Edition" GS trim package was introduced, which included chrome wheels, identifying placards, and the premium interior package from the GT and GTS models, which was not previously offered on the GS trim. Both engines use cast iron blocks with aluminum cylinder heads. The 3. In , the 3. The Mitsubishi Eclipse EV is a prototype electric vehicle with a lightweight electric motor and lithium-ion batteries in the chassis of a third-generation Eclipse. Another substantial styling revision was introduced, with the new model taking some of the profile from the second generation model but maintaining a front fascia consistent with Mitsubishi's current corporate styling features. Like the Galant and third generation Eclipse, the new Eclipse is FWD only, although a concept model has been produced by Mitsubishi and Ralliart with a MillenWorks designed hybrid-electric AWD platform, the 4G63 engine from the Lancer Evolution , and more aggressive body styling with imitation carbon fiber accents. For the model year in the U. Heated front seats. Heated side mirrors. Outside temperature indicator and compass in the center dash display. Leather front seating surfaces. Aluminum pedals. Automatic climate control. Wind Deflector. The Eclipse is equipped with dual bank catalytic converters on the manifolds of both the 4 and 6 cylinder engines with O2 sensors placed after each catalytic converter to monitor operation. Downstream of these is a third catalytic converter placed mid way in the exhaust to assist in preventing further emissions. The Mitsubishi Eclipse was given a minor facelift for the model year, the front fascia changed the fog lights and deleted the triangle housing the "three diamond" logo used to sit on in the grille; the rear fascia changed the "Eclipse" insignia from an indent to raised silver letters. An option to add a dual exhaust and projector H. For , the Mitsubishi Eclipse featured a "blackout" roof, similar to the model. Mitsubishi also lowered the suspension of Eclipse about half an inch to create a lower center of gravity. For the model year, the Eclipse received three slight changes: brake override logic, a clear lip spoiler on the GT trim, and one new exterior color. According to a review and rating by Motor Trend , the fourth-generation Eclipse was described as "dated" - but its "exterior design still stands out among sporty coupes currently available. The last Eclipse to roll off the assembly line was built on 16 August , painted Kalapana Black, its color was chosen by members of Mitsubishi's Facebook community, who picked from a historical Eclipse color palette. This was the only Eclipse equipped with both the 3. It is also built with a sunroof, leather interior, W Rockford Fosgate 9-speaker audio system with Sirius XM, hands-free Bluetooth phone interface, rear-view camera, and HID headlights. The car was auctioned off by Mecum Auctions in St. Grand total Eclipse production was , units. The Eclipse has been campaigned in various auto racing events. It was placed on grid number 74, at the back in last place. It moved up to 24th place overall finish without any issues. In , the Eclipse made its final

appearance in the race, achieving 39th place, after posting laps. They also have short transmission gears to accelerate into triple-digit speeds. Jett Racing entered a 3rd generation Eclipse for drag racing competition. As of , they hold the world record for the world's fastest four cylinder. From Wikipedia, the free encyclopedia. He called me sometime in the evening on a Tuesday and he answered all of the questions I had. He was polite and basically told me all the info I needed and even more. I forgot his name but he was dope asl on jah. Amazing experience I did not end up buying this car instead he gave me a much better deal and I walked out with a very nice car. Very welcoming and worked with our credit! Got turned down in few other dealers but Auto Deals was able to get me in a great car glad i found them. John is a great guy and made the experience very comfortable and very smooth. Thank you! Responded very fast, helpful, the only one that responded to my needs, John Penny is the best. Thank you, I will definitely by another auto from you. Very friendly and courteous. I felt no pressure to buy on the spot and they gave a good price for the vehicle I wanted. In the middle of negotiations instead of getting back to me when he was supposed to, I called back the next morning and was told it was sold to someone else pending their financing. Although I never made it to the dealer they were very courteous and gave me all the details I needed for the car I just never made it down to the dealership per se they were very willing to help and show me other options. Communication between United Star Motors was very good through texts and phone calls. I live out of the area and they answered my calls to let me know the vehicle was still available did not want to be on the road just to find out it was sold. They pleasantly worked with me on a fair deal and I drove home with our Camry. Mike was great to deal with! I found him to be honest and open about the condition on the car. Overall I recommend buying a car from Mike. Super experience with Mike at Decisive. I flew in from out of town to pick up a Nissan Xterra that was exactly as described, clean and ready to go. Mike is very easy to work with, friendly, laid back and detailed. Could not have been an easier process in my mind. Very happy with the vehicle and entire sales process. Adam Immerfall was prompt, professional and patient to our many questions. Would highly

recommend him to assist you with your purchasing needs. Very responsive. Although I have not yet been able to see the car, I have been pleased with the dealerships response. Very nice staff, answered all my questions via text to help us decide on making the trip to Richmond to see the vehicle in person. Sent me a text indicating the vehicle was available. I responded asking a clarifying question prior to committing to a 1. Never received a response. Hanif is very knowledgeable, courteous and a trustworthy salesman. He allowed us to thoroughly inspect and test drive the car. The car was fairly priced and in good shape. Fair priced warranty options too. I'd buy here again. Great experience and great cars! Friendly and honest staff that went above and beyond! Best car dealership I ever been to I will buy my next car from them and I owe several. We'll help you find great deals among the millions of vehicles available nationwide on CarGurus, and we'll provide you with dealer reviews and vehicle history for each one. After all, over 30 million shoppers use CarGurus to find great deals on used cars and new cars in their area. And when it's time to get rid of your old ride, sell your car simply and securely on CarGurus. Once you're ready to narrow down your search results, go ahead and filter by price, mileage, transmission, trim, days on lot, drivetrain, color, engine, options, and deal ratings. And if you only want to see cars with a single owner, recent price drops, photos, or available financing , our filters can help with that too. All Years to All Years. This is an awesome car that is very fun to drive, I feel very safe while driving it, but I have a hard time backing up. This little car can definitely hold it's own when it goes against stronger cars. Highly recommended. I like everything about these cars. The looks, the power, the watt Rockford Fosgate stereo. There are plenty of aftermarket parts out there too in terms of power adders or looks if that is your thing.. Read more. Why Use CarGurus? Everything Eclipse offers aftermarket parts and upgrades for all years of Mitsubishi Eclipse. Ever since the release of the first generation Mitsubishi Eclipse fans have been attracted world wide to the low cost yet incredible performance value that has made it one of the most commonly upgraded tuner vehicles in the world. The 2G Eclipse took performance to the next level and matched it with an incredibly sexy body style that looked great both in stock trim and modified forms. The turbocharged Eclipses of the first and second generation drove the aftermarket to make them some of the most supported sport compact vehicles in the USA. In when the Third Generation Eclipse was released it got bigger, more refined and became more of a touring coupe than the original model. The 4G Eclipse was under appreciated by many but still the aftermarket has grown and now many styling and bolt on performance and suspension products are available. One of the aspects we specialize in are Mitsubishi Eclipse performance parts and upgrades. Due to the tuner friendliness as well as the current market prices for the Mitsubishi Eclipse many performance parts such as turbo upgrades, exhaust systems, down pipes, intercoolers, air intake systems, radiators and more are readily available at affordable prices. In addition to performance parts that will help increase the power and performance we also carry a full line of Mitsubishi Eclipse suspension upgrades that will help you upgrade the old worn out oem components with affordable race ready high quality components. For customers looking to show off we offer one of the largest selections of Mitsubishi Eclipse body kits on the internet. We have put together a massive catalog full of the hottest aerodynamics parts available to make your Mitsubishi Eclipse outshine the rest. We also offer interior accessories and upgrades, aftermarket lighting upgrades such as halo projector head lights and blacked out tail lights. We invite you to check out all we have to offer and we welcome you to contact us in regards to package deals and volume discounts. Take your Mitsubishi Eclipse to the next level with Everything Eclipse. Since the inception of the sport compact culture in the USA started the Mitsubishi Eclipse was a pioneer being one of the first and most commonly modified vehicles for aftermarket body kits. We offer body kits for Mitsubishi Eclipse models with over body kits in total. Weather you are looking for a subtle mild body kit that works off the factory lines or something wild we have it right here. Looking to update the look of your Eclipse? Check out these Mitsubishi Eclipse front bumper replacements we offer. Weather you are repairing a wrecked vehicle or just looking to customize your ride we carry over different front bumpers for Mitsubishi Eclipse. No matter what your personal taste is we offer the largest selection of Eclipse front bumpers online. One of the most commonly customized parts for Mitsubishi Eclipse is adding an aftermarket front bumper lip. These front bumper lips install onto the stock bumper and accentuate the factory body lines while adding an aggressive new look and lower ground clearance which gives a much sportier appearance. We offer 25 front bumper lips for Mitsubishi Eclipse. Take a look at these custom Mitsubishi Eclipse fenders. Looking to put your Eclipse over the top after adding a new body kit? These aftermarket fenders are the perfect compliment on any customized Eclipse. We carry both fiberglass fenders and carbon fiber fenders for Mitsubishi Eclipse. Many styles available including vented fenders as

well as wide body fenders. We carry over 50 carbon fiber hoods for Mitsubishi Eclipse. These carbon fiber hoods weigh in at a fraction of what your factory steel hood weighs and adds that high tech style that we all love. We offer carbon fiber hoods for Mitsubishi Eclipse. We carry many styles from OEM to vented and heat extractor style carbon fiber hoods. Are your head lights looking worn or are you looking to update the look of your Eclipse? Either way we have you covered with over 45 different pairs of head lights for Mitsubishi Eclipse. We carry the very popular halo projector head lights as well as LED head lights for Mitsubishi Eclipse. Many styles and finishes available including black and chrome. Featured brands include Spec-D and Spyder Auto. For those looking for improved lighting performance add on our HID combo upgrade at purchase to convert the new lights over to HID technology. Relay kits available for halo and LED features. The most popular modification for the Mitsubishi Eclipse since day one has been the tail lights. We all know factory tail lights are boring and can be improved upon from the aftermarket. We carry over 45 different pairs of tail lights from LED to Altezza styles. Our Mitsubishi Eclipse tail lights are available in multiple finishes including black, red, smoke and chrome. We offer tail lights for Mitsubishi Eclipse. Ready to add some power as well as unlock the sound of your Eclipse engine? Check out our selection of over 20 Mitsubishi Eclipse cold air intakes. These cold air intakes improve upon the factory intake system by removing the restrictions and utilizing a high performance air filter. Horsepower and torque will be noticeably increased as well as fuel mpg will be improved. After you start to add bolt on performance to your Mitsubishi Eclipse you cannot forget about the exhaust system. The factory Mitsubishi Eclipse exhaust systems are designed to be as quiet as possible and to meet stringent emissions standards. These exhaust systems leave lots to be improved upon from a performance standpoint and we have you covered with over 28 Mitsubishi Eclipse performance exhaust systems to chose from for models. For turbocharged models the down pipe is a must have modification for any Eclipse. These Mitsubishi Eclipse down pipes offer straight through design for optimal performance. These performance down pipes reduce back pressure by allowing a more free flowing route for the spent gasses leaving the turbocharger. Featured brands include Megan Racing and Tanabe. One thing that has taken over the vehicle customization and tuning culture the past few years is stance. Nothing looks better than a proper set of wheels and the suspension dropped to the perfect ride height. These Mitsubishi Eclipse coilovers allow you full ride height adjustment as well as damper adjustment to fine tune the ride quality to the drivers liking. We carry Mitsubishi Eclipse coilovers for models. Featured brand is Megan Racing. Did you pick up a new set of wheels for your Mitsubishi Eclipe and something just doesn't look quite right yet? It's that dreaded wheel gap between the tire and the fender and we can help you get rid of it. We offer Mitsubishi Eclipse lowering springs for models. These lowering springs can be used with factory struts as long as they are in good working order. If your vehicle is high mileage you may want to also consider a strut upgrade at the same time to save on installation costs. Security Verified Daily. Keyword Part. View Cart. Start Here.
